## CWIMMA Membership Benefits

Companies in the metal manufacturing and machining fields will realize the following benefits of joining our alliance:

- Help ensure future ability to grow your company by drawing attention to the current skills shortage and actively participating in filling the pipeline with necessary skilled workers.
- Increased networking with companies in similar fields likely facing similar challenges.
- Improved community presence and advertising to workers who possess the skills you need in your business.
- Increased opportunities to communicate to educational institutions about the real world skill needs for your business.

### Central Wisconsin Metal Manufacturing Alliance's accomplishments to date

- Expanded Heavy Metal Tour for middle school students from 350 to over 3000 participants and 40+ manufacturers
- Expanded welding competition to 9 school districts
- Instrumental in Increasing capacity of Welding program at NTC from 38 to 110 graduates per year
- Successful in establishing a partnership with Miller Electric to provide \$400k in welding equipment to NTC
- Won Fast Forward Grant to provide Advanced Blueprint Reading training in the amount of \$200K with 15 employers participating in training program
- Held Educators Summit that consisted of 16 school districts from our 9 county areas. The superintendents from every major school district attended.
